

COVID-19 Worksite plan:

1. All appointments are scheduled in advance, and those appropriate for telehealth will be contacted in advance.
2. Patients to self-screen 24 hours prior to appointment, and are screened again before entry to clinic.
3. Patients who screen positive will be switched to a telehealth appointment or rescheduled with no fee.
4. The waiting room is closed.
5. Patients are brought directly into the exam room. Mandatory hand hygiene on entry. Patients are requested to wear a mask for the duration of the clinic visit.
6. Only the patient and parent/guardian/caregiver (if applicable) to attend appointments in the clinic.
7. Physical distancing of 2 meters to be maintained as much as possible.
8. Physician will wear a face shield, surgical mask (and other PPE if needed) during appointments.
9. Physical distancing/barrier between front office staff and patients.
10. Disinfection of high-touch areas of the clinic. Disinfection of the exam room between each patient.
